EASTERN STATES EXPOSITION → WEST SPRINGFIELD, MA

EASTEC is the premier manufacturing exposition in New England. With more than 500 exhibitors, industry keynotes, complimentary educational sessions, technology resource centers and much more, EASTEC is designed to optimize your business opportunities. The event offers a unique venue for attendees to see manufacturing brilliance solutions that can solve your most pressing problems, improve productivity and increase profits. Business owners, engineers, designers, production managers and purchasing executives attend EASTEC to keep their operations current.

EASTEC participants can meet one-on-one with buyers, sellers and other potential business partners, in an environment that fosters collaboration and long-term business relationships.

EASTEC offers multiple opportunities to participate. How can you get involved?

The EASTEC *experience*

EASTEC is more than a trade show, it's an experience designed to bring together the best of Northeast manufacturing. Attendees can see, touch, learn, discuss and share manufacturing technologies, processes and best practices. Everyone comes away from the event with something they can take back to their business and use immediately; a new technology, an idea, a solution or a new business contact.

- **Free Keynote Presentations** – Innovations, trends and market developments
- **Complimentary Educational Sessions** – Continuous improvement, advance manufacturing, management, lean and workforce development issues
- **Networking Opportunities** – On the event floor and after hours
- **Additive Manufacturing/3D Printing Resource Center** – Explore the growing number of additive manufacturing applications and technologies
- **Advanced Materials & Light Weighting Resource Center** – Learn about advanced materials available for your lightweighting challenges and more
- **Bright Minds** – A bridge for engagement, communication and collaboration between educators, students, industry and government

Technology *exhibit pavilions*

Five exhibit categories allow attendees to target their buying interests and easily find the exhibits they want to see:
